How Does GOPB Improve Government Efficiency?

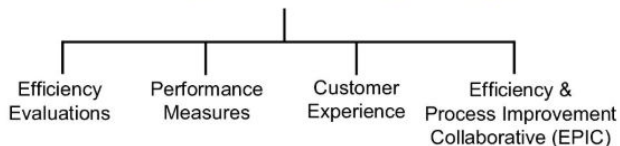

Executive Order 2025-05

GOPB's Results Management team works to ensure taxpayer dollars are spent effectively by aligning resources with measurable results.

GOPB's Results Management team helps state agencies:

-  Define Clear Goals
-  Measure Performance
-  Make Data Driven Decisions

GOPB Improves Efficiency Through:

Government Reform, Innovation, & Transparency (GRIT)

Executive Order 2025-05

What Does GRIT Do?

Empower employees to implement ideas to improve government

Drive improvement across state government

Identify ways to coordinate and enhance existing improvement efforts

With state employees and the public at the heart of this initiative, we want to find what isn't working and fix it to give Utahns the best services possible.

Utah's Risk Management

- **Stress testing**
 - Upcoming budget stress testing exercise this fall with the Office of the Legislative Fiscal Analyst
- **Contingency planning**
 - HB 59 passed in the 2024 General Session, requiring state agencies to provide a contingency plan for all grants over \$2 million. Additional contingency planning is required for agencies that receive more than 33% of their budget from federal grants.
- **Standardized risk monitoring**
 - Ongoing collaboration with the Office of the Legislative Auditor General to actively monitor high-risk areas.
